

VeriESG

AI SUSTAINABILITY & ESG EVIDENCE ANALYZER

AI-powered evidence for a sustainable future. Transforming ESG compliance and reporting with intelligent, data-driven insights.

www.veriesg.ai

WHAT IS ESG

ESG is a report card for a company that goes beyond profit.

- Environmental: how much pollution it creates, and how much energy, water and waste it uses.
- Social: how it treats its workers and society: fair pay, safety, equal opportunity.
- Governance: how honestly it is run: a fair board, no corruption, open reporting.

Why it matters: investors, banks, regulators and customers now ask for ESG data before they trust or fund a company.

How ESG Works in India?

The regulator: SEBI oversees the stock market and sets ESG reporting rules for listed companies.

- The report: BRSR (Business Responsibility and Sustainability Report)
Mandatory for the top 1000 listed companies by market value, starting FY 2022-23
- Filed along with the company's annual report
- Built on the nine principles of India's National Guidelines on Responsible Business Conduct

The result: thousands of ESG claims are published every year, and someone needs to check them.

Indian enterprises face growing pressure from institutional investors, global supply chains, and regulators to demonstrate credible ESG compliance. VeriESG's AI engine parses BRSR filings, flags greenwashing risks, and benchmarks performance against sector-specific sustainability indicators.

ESG IN INDIA

COMPLIANCE

Social Metrics

Monitor DEI metrics, employee safety records, supply chain labor standards, and community impact indicators required under ESG compliance frameworks.

Audit Readiness

Maintain audit-ready ESG documentation with automated checklists, compliance gap analysis, and real-time alerts for regulatory deadline management.

Evidence Management

Centralized repository for storing, tagging, and verifying ESG evidence documents with AI-powered authenticity checks and tamper-proof audit logs.

BRSR Reporting

Mandatory BRSR disclosures for top 1000 listed companies in India, aligned with SEBI regulations and GRI standards for transparent ESG reporting.

Emissions & Env. Data

Track Scope 1, 2 & 3 carbon emissions, water usage, waste generation, and energy consumption with verified data trails for regulatory compliance.

Governance Controls

Enforce board-level accountability, anti-corruption policies, executive pay disclosures, and whistleblower frameworks as per SEBI and MCA mandates.

MARKET & COMPETITORS

Many companies work in ESG, but they solve different problems.

➤ Market Opportunity

- Auditor checks on key ESG numbers are expanding Investors and lenders want proof
- Greenwashing scrutiny is rising
- AI cuts manual review time

➤ Target Customers

- Large listed companies
- ESG and compliance teams Consultants and audit firms
- Investors and banks

➤ Competitive Landscape

- Global ESG data and ratings providers - MSCI, Sustainalytics (Morningstar), S&P Global, ISS ESG, LSEG, Moody's, Bloomberg - They score companies for investors
- Indian ESG rating providers - CRISIL ESG Ratings, CARE, ICRA, NSE - Regulated by SEBI as ESG Rating Providers

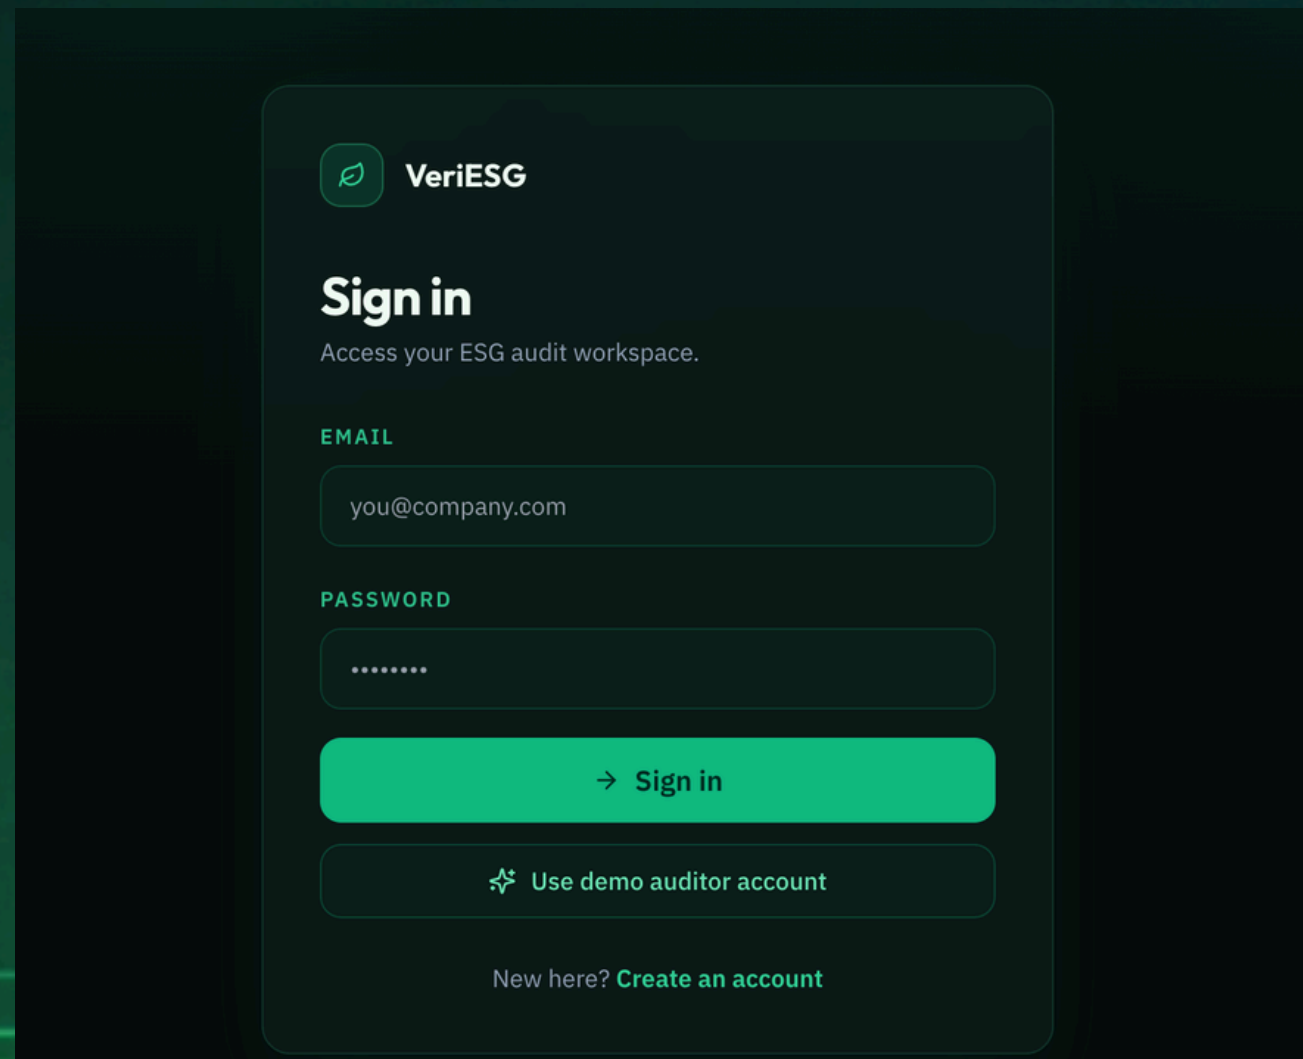

WHAT WE OFFER

Upload an ESG report (PDF) and get five outputs:

- ESG Scorecard: overall score plus Environmental, Social and Governance scores
- Evidence-to-Claim Matrix: claim, category (E, S or G), supporting evidence, strength (High, Medium, Low), page reference
- Greenwashing-Risk Register: unsupported statements and vague wording, with a risk level
- Disclosure Gaps: missing frameworks such as GRI and TCFD
- Improvement Roadmap: immediate actions and long-term strategy Extras: saved analysis history, sample reports to try, delete and review old audits

HOW IT WORKS

The image shows a mobile app interface for VeriESG. At the top is the VeriESG logo. Below it is the heading 'Sign in' with the subtitle 'Access your ESG audit workspace.' There are two input fields: 'EMAIL' with the placeholder 'you@company.com' and 'PASSWORD' with a masked password '.....'. Below the password field is a blue button with a right arrow and the text 'Sign in'. Underneath that is a button with a key icon and the text 'Use demo auditor account'. At the bottom, it says 'New here? [Create an account](#)'.

Step 01 Sign in

- Sign in Account with a password, plus a demo auditor account for quick access.
- Login is secured and users stay signed in safely

Step 02 Upload PDF

- Drag and drop a text-searchable PDF (up to 50 MB)
- File is saved in cloud storage and marked "Processing"

Step 03 AI Analysis

- The text goes to an AI model with a structured prompt
- The AI returns organized results (JSON) covering all five outputs

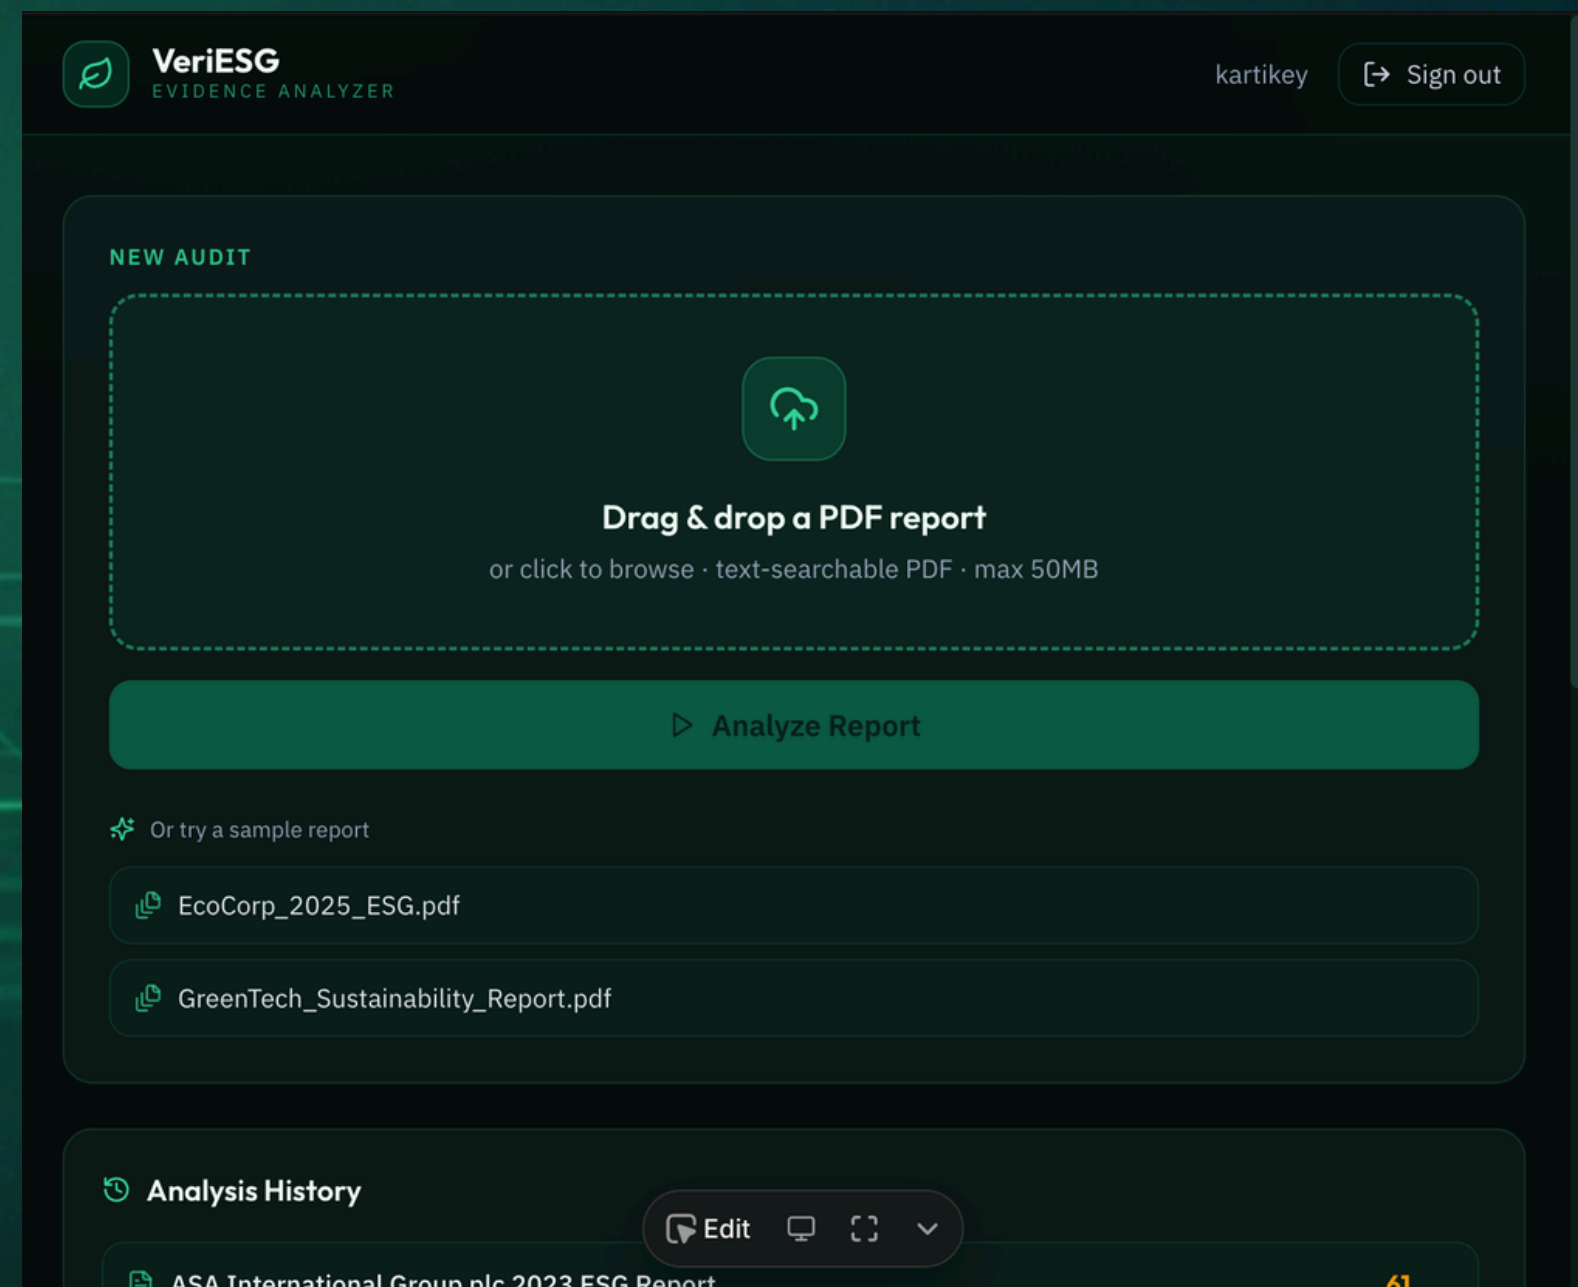

Step 04 Dashboard

- Results are saved to the database and shown to the user
- Users can come back later and find the same results

TECHNOLOGY USED

- Frontend: React/Next.js (dashboard and upload screen)
- Backend: Node.js/Python (API, PDF parsing, AI connection)
Database: PostgreSQL or MongoDB (users, history, results)
- Cloud storage: AWS S3 (uploaded PDFs)
- Security: AI API keys stay on the server and are never shown to users

HOW WE ARE DIFFERENT

➤ Evidence-First AI

Every ESG claim is backed by verifiable data sources. Our AI surfaces raw evidence, not just scores, giving you full transparency into sustainability findings.

➤ India & BRSR Aligned

Purpose-built for Indian regulatory frameworks including BRSR, SEBI mandates, and national ESG standards — not a generic global tool retrofitted for India.

➤ Audit-Ready Intelligence

Traceable, structured, and audit-ready ESG reports with full source citations, enabling compliance teams and auditors to verify every data point.
